

Newport Ventures, in conjunction with NYSERDA provides education and support for Energy Code stakeholders throughout New York State.

INSIDE THE ENERGY CODE

NEWPORT VENTURES

10 Things to Know About New York's Revising the Energy Vision

1. The Public Service Commission (PSC) fully supports **strategic electrification**.
2. Utilities can now **rate-base software leases**.
3. **Energy Efficiency Program targets are due by the end of September**.
4. National Grid will host the **first Distributed System Platform in Buffalo**.
5. Almost every major utility has proposed an “**online marketplace**” demonstration project in preparation for a statewide marketplace platform.
6. Almost **every major utility will install advanced meters** and embrace **Green Button “Connect My Data.”**
7. Residential **time of use rates will remain opt-in** pending further study and analysis.
8. The major utilities will propose “**smart home**” **rate demonstration projects** by February 2017.
9. **Net-to-gross ratios aren't as important** as they used to be.
10. **DSIP Investments will not be subject to retrospective review** (more or less).
